

SAJIDUR RAHMAN

WEB DEVELOPER AND DESIGNER

I'm Web Developer Passionate about creating great web and app which truly make a huge difference, by meeting User/Customer needs and creating business value. I have over 1 years of Coding Experience working both client-side and agency side.

EXPERIENCE

Programming Hero Course

STUDENT BATCH-5

I was a Student in Programming Hero Batch-5. Here I learned about Web development in Front-end. And when we teach in Programming Hero we also create some exciting projects with the help of Jhankar Mahbub. Then we create some special projects without any help. After finishing the main course we participate in the advanced crash course. Here we learned about node js and MongoDB. In this course, we create some back-end projects with all authentication systems. After this course, we participate in the Redux course. Then we create some awesome projects using Redux without any help.
